

## Skills

*New GI 360° broadcast, 25 January 2022*

*The quarterly GI 360° broadcasts, produced by the Global Industrie exhibition, provide content useful for companies looking for information and insight on the world of industry. Following programs on reshoring, 5G, circular industry and hydrogen, this new broadcast will discuss skills, which are at the center of today's concerns in a favorable context for recovery and reshoring. This broadcast will be placed online on the 25<sup>th</sup> of January 2022, on the Global Industrie site.*

As usual, the one-hour program will begin with an economic overview of the industrial sector, followed by a debate on the theme of the day, and will end with a virtual tour of a factory of the future, a source of inspiration for new investment projects.

- **An economic overview of the industrial sector** by Alexandre Saubot, President of France Industrie, who will detail the very latest figures for French industry, take stock of 2021 and discuss the prospects for 2022.
- **A big debate on Skills**  
 "There will be no Industry 2030 without skills", declared the French President last November. This debate will analyze the skills industry is looking for. How can we compensate for the lack of qualified workers? What will their jobs be tomorrow? How can we reform practices and how is the education system preparing for this revolution driven by new technologies and particularly the impact of digital technology? With:  
 Stéphanie LAGALLE-BARANES - Director of OPCO 2i.  
 Marième DIAGNE - Project Manager at France Stratégie / Prime Minister's Office.  
 Federico BERERA - Chief Inspector of Education, Sport and Research, Dean of the Industrial Science and Technology Group.
- **A 360° tour of the ABCM factory**  
 Landry Maillet, the company's CEO, will show you behind the scenes at this industrial machining plant in Vendée which was voted the Factory of the Year and awarded the *Vitrine Industrie du Futur* (Industry of the Future Showcase) label.
